Our plan of operations and all necessary information is contained in the Catalogue, a perusal of chich will consider a word of the GREAT INDUCEMENTS

REMARKS BY Ex GOVERNOR BROWN, ENFOR OF THE NEW-ENGLIND FARMER—In confirmation of the opinion which Dr. Hotoms, Editor of the Marks Farker, has formed of the value of the American Guane, we will state that we have used it for two seasons with the happists remain. The first trial of it was on corn, where its educate were distinct through the season; the toric coming on saffer in the spring, growing faster, with a dark green color; and producing abundantly in the ear. This hast season we tried it through the centre of the field of corn with similar results. It also produced corrots and potators, without other manure, of most excellent quantity, and liberal in quantity. On beets and presulps the recuit was equally marked. But the point which we attach the most impertance is, that it may be used on any crops as a stimulant and fertilizer in the full, without endangering the germination of the seed, and trus give corn, or other plants requiring a long season, an early start and seemer their perfection before the time of frosts. In our short, cold and wet springs, it is essential to give the corn crop an early growth, and this we have secured by the use of the American Guano, better than in any other way. We hope our farmers will generally try it, and that the price will be kept within moderate limits, so that all may avail themselves of its advantages. We shall continue to use it freely, if the price does not exceed 840 per for, 18-46. ne hold out in order that all may be benefited by our system, end for a Catalogue. AND THE ONLY REMEDY.

THE Eastern States, included in that section of the Union which is most widely known as "New Eng and," unitain a thrifty, industrious, including in people, who have achieved an uncommon degree of prosperity; with a climate extremely trying to certain constituctions, and a soil of small fertility, they have contrived to surpass more favored remainities in admost everything that conduces to social comfort and happiness. Unfortunately, they are occasionally as absorbed in business and mental cultivation, the they neglect the precautions which are essential to be _y health Byspepois and physical debitive are prevalent among all classes. The first disease is preduced by inathentism to the digastice organs, which are as susceptible of decaugement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost eithout a hope of relief. They have come to be leve that their aliments to chronic, and that they must been with it of the end. It grailfest us exceedingly to announce to these afflicted individuals that they may now command a removely of unquestionable potency and virtue, which has never been found to fail its all encested digastive weakness or derangement. Dr. J. HOSTETTER'S CELEBRATED STOMACH BITTER'S

But that numerous class who devote themselves to literaty and other adentary pursuits, and in consequence of a
want of physical exercise, become the victims of languor
and debility, without nerve or appetite, have intherts sought
in vain for some ineigerating, life giving medicine, whose of
fects upon the system shall be both speedy and pertuarent.
Physicians of emisence, and profoundly acquainted with
the requirements of the human frame, commend Bostetter's
Bitters as the safest and swiftest stimulant to the recuperative energies of the system set discovered. It restores the
appetite, gives fresh vigor to the digestive organs, sends the Physicians of eminence, and protonoity acquainted with the requirements of the human frame, comment Hostetter's Bitters as the safest and swiftest stimulant to the recuperative energies of the system red discovered. If restores the appetite, gives fresh vigor to the digestive organs, sands the blood through the veins with a mure itsely current, corrects a tendency to depression of spirits, and fits a man for the transaction of requirements which have been devised for the same object, the Bitters do not act spasmodically, or with a temporary power—the influence of the remedy is testing. And if a patient will but give rome attention to securing proper exercise, after the relief has been sufforded he need fear no return of the affliction. The siballity natural to the encroschements of years upon the bodity frame is also alleviated by this great strengthening medicine, this enabling the aged to past their declining days in physical case; whereas they are now suffering from extreme such mervaniness. To this venerable class of people, Hostetter's Bitters may be commended as invaluable. The proprietors of this invigorator have, an addition, a deep gratification in ascuring Nursing Mothers that they will find the Bitters the best and safest of restoratives. Very few medicines are sanctioned by physicians as proper to be administered during the period of nursing; and this has obtained an universal preference.

De Those who desire to purchase this great remedy for Dyspenda and debitity should remember the precise till Hostetter's Celebrated Stomach Bitters. It is put up in quart bettles, with the name, Dr. Hostetter's Stomach Bitter blown on the bettle, and also examped on the cap covering the cork, with the name, Dr. Hostetter's Stomach Bitter blown on counterfeits now in the market.
